Ah! God, you're doodling on your face again.
If looking after you wasn't my job, I wouldn't even want to be here!
It's you, angel Zou Ling. Are you here to do that raucous music therapy again?
You're annoying. If I don't draw a smile on right now, I think I'd be bored to the point of insanity.

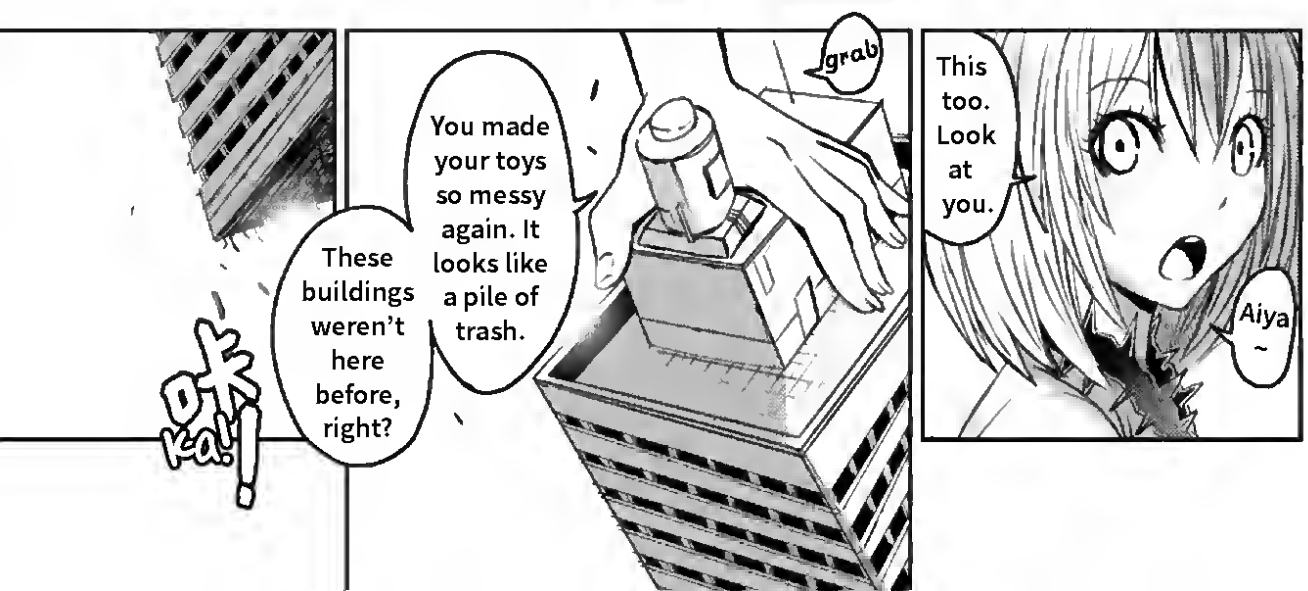
Oh.

Hey! What did you use to draw this!? It won't come off! You'll get scolded by your mother again, you know!
Use more strength! Wipe it clean!
This is an egg, right?
Are you going through a rebellious phase? You never even had a face in the first place, so why are you doing this?



OK Ka!
These buildings weren't here before, right?
You made your toys so messy again. It looks like a pile of trash.
grab
This too. Look at you.
Aiya ~

What is going on!?
!?
!
Eh !?
?
The buildings are... flying...?
!?
These toys are alive as well, you know!
That's why, you should cherish them well after you play!
Huh? What are these toys saying?

Ah !?
whoosh
Ah, that's right, they can't see us.
!?
You want to know the meaning ?
What is the meaning of this!?
Just went and hit my hands so hard!
You... all of a sudden ...
God, what are you doing !?
Hey !
You should have told mother to buy new toys for me, right?
I've said it a lot of times already. 「World Creation」 I'm bored of playing with these toys.

Er... Actually, it's fine with me either way... I'm not really interested in your world...
You want to know how shitty this world is as well, right?
Ha! You want to know so badly? I guess I have no choice then~
point!
Gods Hand
I don't care~ I don't caaare~
Ah? You're so annoying! Didn't I already tell you that your mother won't buy them for you?
No one is playing with these decrepit toys anymore~
This is beyond the scope of my abilities
My protest against this world!
Let me use the language of flesh to convey it
Please listen carefully to others when they're speaking!
Hey, I said I didn't want to hear it~
The whole system is lacking in IQ!
There's a complete lack of point in playing!
To put it briefly... There's no meaning to this toy!

Cosmos
I wake up from my sleep, and my own genesis has unfolded; a civilization has sprung up... What should I do? Has mold grown on it?
The most irritating thing is when, after bringing home some new toys, spending a week moulding a sphere—
So vile!
Eh !? So many !
Out of all the living things, the one that disgusts me the most is mankind. They are no different from a bug or virus.
ドカン!
t/n reference to Pangu creation myth
Am I just a school kid being pushed around and bullied!?
ドン!
Isn't it obviously to keep me from having a hand in creation? Do you respect the player or not? I spent money and you're not letting me play?
How many billions of years did you sleep for!?
It looks like you just slept too long, right?
And the fastest method to do that is—
That's why... to compel mother to buy new toys, I have to finish one of the endings...
What should I do? I really want to play with them♡
ドン!
The tragic thing is, the new fun toys, like bamboo shoots after a spring rain, have just been put on sale...

To destroy the whole world
ドン!
E—Everyone watching this, hello! This station's correspondent is risking his life to report this for you.

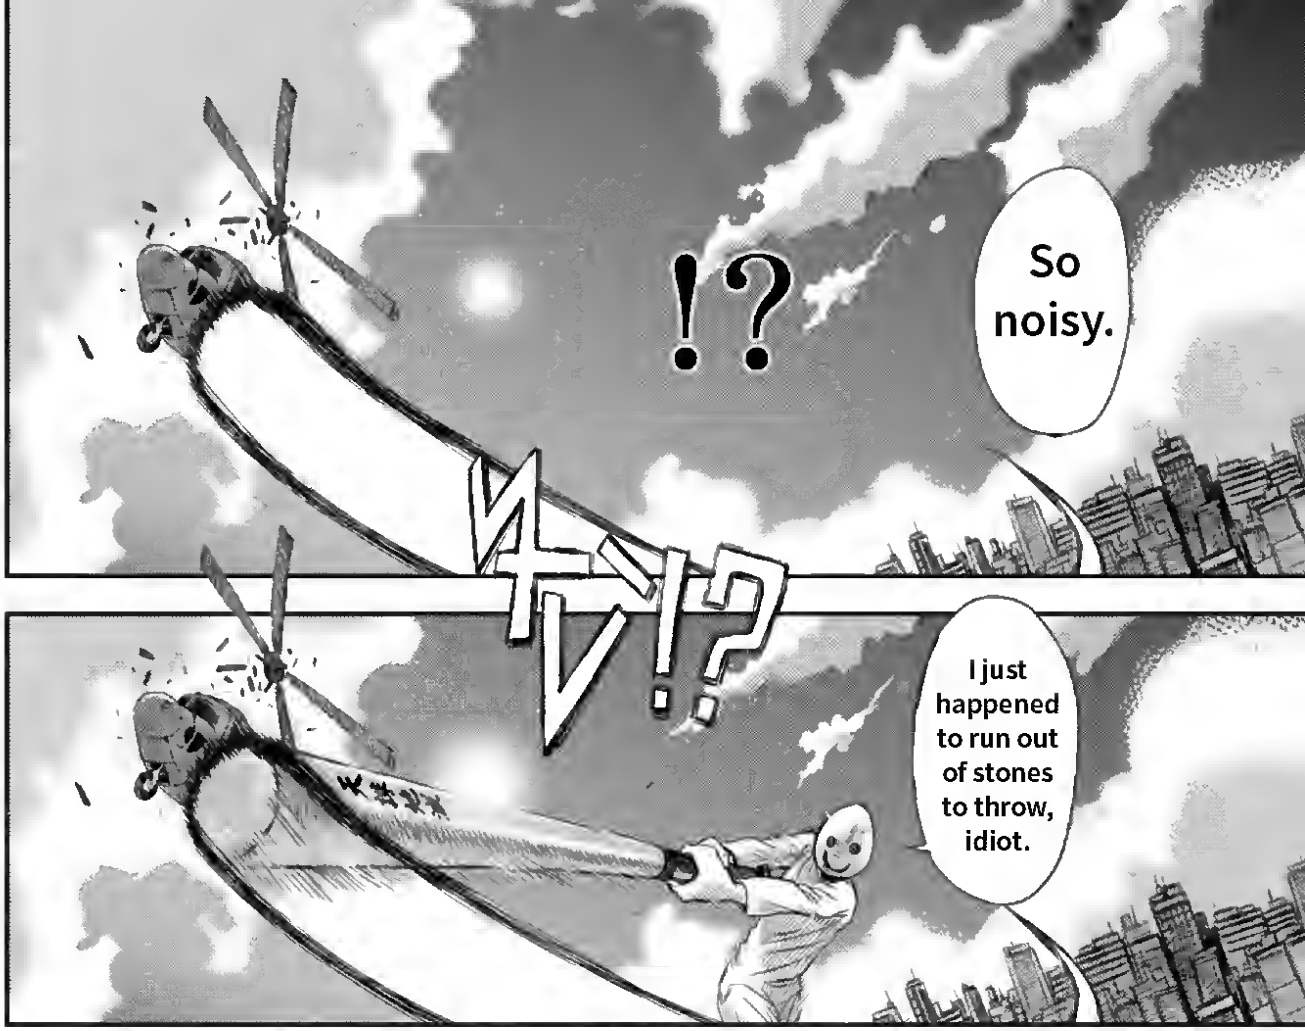
It seems like the stones raining down all over the world earlier have momentarily stopped...

As we can see, there are holes that were made by the falling rocks everywhere...
But there isn't anyone from the government who can explain...
Also...
another strange thing has fallen from the sky.
What, exactly...
Is this enormous square shaped object?
We will...
whoosh



bat: 'be destroyed by heaven and earth'

Hey! You're being too naive! It's not that simple! Your mom isn't an idiot.
Ah, forget it, if you want to break it, then break it! I don't feel like bothering with you.
Ah ha ha
Fun! Fun!
I finally get to destroy everything~ Only now has it started to get fun;
I think this is the actual way to play with the toys
Since I didn't get to have a hand in building it from the start...

After what you did just now, it looks like one tenth of the population has been lost... Should we say they're they're fragile, or....
